Do young people today make good use of their free time? You're at home you can't go out because you're busy. But you can't stop checking your phone. What's everyone else doing? Does this sound like you? Then perhaps you have FOMO - Fear of Missing Out. "Sometimes I see a picture of some friends online", explains Lucas 16 "They're hanging out somewhere I can't go - maybe I have homework. But it makes me feel unhappy. My friends are having fun and I'm not". About 25% of teenagers say that they get this feeling, but people of all ages experience FOMO. For Grace, 21, her FOMO is a serious problem. "I never read or play sports now" she explains "I go out almost every night because I don't want to miss out. Or I sit at home and read online about what my friends are doing. FOMO kills your leisure interests. Dr Suzanne Taylor, a (phys.) psychologist, say social networking websites are not helping people with FOMO. They're perfect for communicating with friends and relatives - all over the world. Suddenly, others people's lives look interesting and our own lives feel boring. But before bed tonight, put your phone in another room. And before you go to sleep, think about the interesting things you're doing this week. And I remember how lucky you are. Many people today make good use of their free time.

E) In these days teenagers use the Internet and thin much informations. For example learn new languages and have new friends from other country, find on line job. Some young people use the TikTok, because with the TikTok they making money at home. But, of course, some young people spoils yours free time use the Internet. In my opinion, teenagers make good things for yours life.

I am a teenager and I use my time for make good things. For example learn new languages or pass exam with the Internet. We have so much time, probably, not all people use free time for good or make good. Before I learned English language in my free time and now I know English is very good. I like learn something new, something good for my life in the future.

If young people know, how use free time, then they will learn all good knowlege. I hope what have teenagers who use free time for good things, maybe for study or learn new languages as me. In the end, I want to say one proverb "Wet old coat and buy a new book". To do, pay attention and don't your free time empty.

Nowadays there are a lot of kinds of activities which are used by young people in their life. There is opinion that children are good at spending their leisure time whereas it is argued by others that children spend too much time watching TV and playing video games and they should use this time more reasonably. In my opinion, it is a huge modern problem that children are sometimes addicted at to TV and games, and it's parents responsibility to encourage their kids to spend their leisure time properly.

First of all, currently, it is not argued that children can spend all day in front of a TV or computer without limitation, because it's interesting for them. As consequence, they become lazy and stop doing other creative things. For example, who's 7 years old, can watch animation movies for several hours, if I do not stop. After long time watching TV, he cannot do homework or walk, because he doesn't feel well and has a bad mood.

In addition, the majority of children cannot make good use of their leisure time, therefore their parents are supposed to limit time, which children spend with TV and PC. At this time there are a lot of extra classes for children, such as painting, singing. Young people have opportunities to choose the most preferable activity which they want to learn. Therefore, parents have to play the main role in their children's choice and encourage them to do more productive activities.

E. Do young people today make good use of their free time?
 Most of us doesn't make good use of our free time. And that's a fact because of us have a phone and we're actually living in our phone. 21's century people have forgotten how to how to live. Our whole time is stolen by social media. There's one third of people spending their time for nothing and that's a big deal. We have to learn how usefully spend and use our free time. Most of young people don't like discuss this theme. That's just impossible for some of us to stop using phone.

E. Do young people today make good use of their free time?
 Of course In these days there are the less amount of people who try to spend their free time with good hapies. In my opinions, young people must try to good use of their free time. They always make themselves very different. Useful exercises and different interesting classes courses. The young people have to try to learn different languagues and find their hobbies and exhibitions. On the way there are many people who learn languagues like English, Chinese and so on. In these days, all people must use their phones with useful things and spend their time on a good thing. Now the youngest people earn money in free time and try be independence from anybody. However, the great number of people don't make good use of their free time. 'Time is money'. They should spend their time on different hobbies. I think it depends from the century, the age, and other factors. They used to live more slowly. But now you mustn't miss the every boat and do all to use your free-time on good, useful things.

B) Hello!

I'm a student 3rd course of KZNU. My name is Ainur Antanasova. I'm from Kazakhstan in Janatas.

I'm interested in visiting the USA. And I have seen this advertisement online. Will you ask me more information about New York Adventures?

I have three questions. Firstly, what is the company?

Secondly, will I go to the USA without money?

Thirdly, when is the tour?
