Knowledge - is the most powerful thing in the world. But not everywhere. Knowledge without experience is nothing.

Sometimes knowledge don't help you in some situation in life. I agree with this opinion. Not everything that is learned is contained in book. Book is part of my life. It is not just a source of information, it is a world I can visit. We need to ask advice who is more experience and ~~the~~ clever, not who is old.

In my opinion, knowledge gained from books is more important. Because, book is based by author's experience. For example, books about relationship and money, or about success (Rich dad, poor dad), or about memorizing hacks. Who is written books about these topics, they are sharing their knowledge gained from experience. Reading book, we can solve our problems easily. For example, two young lovers has get married. But they don't have experience in life, and in relationship. In this situation can help only knowledge from a book. If they didn't read a book about relationship, they would divorce in a short time. But on other hand, when they get married, they can ask about this hacks, who is experienced in this.

In conclusion, knowledge gained from books will be useful in any different spheres of life.

- Bicycle

B. In my opinion, bicycle this is very careful transport for people. I am sometimes go school with father's car, but, I wanna always go with father's car or bicycle. I like bicycle, and I changed bicycle. I rarely think, I need bicycle. Father rarely take me the school. If I have bicycle, I always going to school with bicycle. I walk school at the moment. I can't run with bag. In my opinion, for people need a bicycle, but not cars. I think bicycle this very good for your, our immunited. In my opinion, bicycle. this is very careful transport for us people. It small, tall, strong, This is be careful on the future. Gaz and bad air in the car. This is very dangerous for people, nature and animals. We use a car, but car very danger. We died. Why don't airplane transport, why don't car, why don't bus. Why the bicycle. bicycle not danger. Because, bicycle very explain and vehicles. I wanna be sportsmen. Because, sportsmen drive bicycle very least, run, jump, swim and dance, boxs.

Bicycle - careful for me, people, animals, nature, future. I think
bicycle good for future. Air so well, clean. Bicycle good and well
for nature. I have a many bicycle. But I don't drive it. Bus, and car
don't clean. I like bicycle. But I like car too. Bus's very
danger for me. Bicycle very careful for people.
I think, person thinking very carefully.

E) If I have chance go back to some time in the past. I would go to my childhood time. I think every people want to go back to childhood time. Do you know why? Because, time in childhood were more better than old times. Take care of parents, friends in yard, smile of grandmother and grandfather when they see you. It got another feelings when I think about it. We all missed about that time. Obviously I missed my grandparents old house, that I spent all my childhood. Actually, we forget punishments. Because we don't take it seriously. Our childish mind was so clear. I still can not forget about time when I with my brother go to the small shop, play with little bunnies, swim in pull. My grandfather was master to do something with wood. We still have things that were made by my grandfather. Sometimes I look at them and remember all that time. It seems like how older we get, problems getting more too. In such hard times, I remember about my childhood time. It helps me to clear my mind. I recommend it to you too.

D) Do you agree or disagree with the following statement?
Technology has made the world a better place to live:

Technology makes a sense of being independent and it has been helping for humanity since its demonstrated as a tool for upgrade of people. In my view the technology absolutely did a lot of changes in our life. Some minors are better than geniuses due to amenities of the technology. Technology plays a predominant role in human's life, because we started think and move separately than it was in an ancient times. Firstly, technology has made the world a better place to live due to its possibilities and improvements in our life. Many types of heavy works was impossible for persons. However, since the technology improved and helped a lot to people's life, we could think that those heavy works will be easy with the new inventions of the technology. People live a crucial life via utilizing the new technology, because it makes your job easier than your abilities. Consequently, it saves a time that people need to share with their families and friends. However, some ones use the ~~advance of the~~ technology as a tool to steal and break something virtual on the internet and it causes a lot damages to personal accounts and individuals. The rapid

access to the internet and discovery of new series of the technology allow a quick entry to the personal desks and it's very dangerous and frustrating thing to think. Some virtual thieves try to steal money from the individual apps. Although it is very uncomfortable and dangerous, we will use this forever.

In conclusion, we can live without a worry and dangerousness with technology. Despite the disadvantages of the technology, our life will be a better via to using it. Technology made everything appropriate than simple persons. The given chance of the technology freely makes an aid for everyone.

Maximum score – 50 points / Time - 50 minutes

D) Virtual reality as of recent, while still extremely new, has become the topic of many opposing viewpoints. It has caught the eye of the general public for several reasons. Perhaps, this is mainly because of all the possibilities which virtual reality creates. Note that the possibilities are not predetermined as either good or bad, mainly because there are many different opinions to the future of the developing technology. However, despite the controversy this new technology has aroused, society should not remain skeptical.

Virtual reality has the potential, if used correctly, to become a great technological advancement that will society a many way. In the past, virtual reality has been nothing more than a small step beyond video games. However, it is now apperent that this technology can be used for more practical purposes. These purposes include national defence, surgical procedures and various other appelications. Society has not fully acknowledged the benefits of virtual reality as of yet because it is still under development.

The reason for virtual reality remaining in its development for so long due to its complexity. The hardware that has developed for so far unable to make the large calculations required by a virtual reality based machine. However, as apperent in recent years

technology is advancing as at extreme rate. This is another reason why society's hopes for virtual reality should and remained unwavering. In Orenstein's story, she gives the perspective of the average citizen who is obviously, uncertain about the uses and affects that virtual reality will have upon society.

The show she attended was quick to point out the practicality of virtual reality, however, it still left much to be decided. Perhaps, it wasn't just that it came up but more like how it came up. The idea, on the man and women being in a virtual world and a man fondling the women's breasts was probably, although very much possible, not a great first impression.

Were an employer, kind of worker prefer to hire, an inexperienced worker at a lower salary. The government has announced that it plans to build a new university. Some people think that community a good place to locate the university. Contrast knowledge gained from experience with knowledge gained from books. In your opinion, source is more important. Technology has made the world a better place to live.

1) If you could go to some-time and place in the past, when and where would you go? why?

If I could go to some time and place in the past, I will read English book, because I want to become English teacher. Teacher are of the most important pillars in our society. There are different professionals like doctors, engineers. Build buildings, simillarly, teachers are important road in building whinnibly our society. Really are imcomplete weither gentle people.

All of us want to become sometime in our future and we server our nation different ways. I want to become teacher and want to make studies easier for student. I have seen some children in the street: beg and do dirty job. Children future any anation, we should handle them with care.

We learn different things and different place for in our school. Teacher are not also teach us school who anyone teaches you. They either gave to bookish knowledge or some moral and society knowledge. Some coaches and motivational speakers or teacher. people to not take for darkness over teacher and I want to become one of them. All teacher a great job and imcomplete kind of

society. I wish should sopepy and they teach their locality
 society. They are not teach us mannerlly but also
 show the path and succes. My teacher teach us
 to become a good, a great human. I am now read
 a English book. Because: I am the future to become
 English teacher. I will try a good teacher. I believe
 my goal dreams do it. I am teach children to become
 a good human.

Nevertheless this professia became popular. In four
 years I will teacher. I want to studjed in New York.
 (It is I do hard work.) It is fore I do hard work
