My dear Mary,

Hello, How are you? How is your family? I am great and I hope everything is fine with you. What are you doing! I am sitting and I miss you. I haven't seen you for a long time. What's news with you? But one day I gone in the street I showed awful and big dog. I so scared, worried. But he doesn't come to me. I gone in my house and I told this to my dad. My dad said if I don't afraid, dogs never come to me. However we must be careful. Because any

animals maybe angry. Oh, Mary. I advice you must be careful. I want to invite you to my house. I'll show you my dogs.

## C - Advice for Mary

Hello, Mary! How are you going? I'm just get your email. So, I would say that you have really serious problem. Because, phobias are the seriously things. Such as you, I am too have phobias from dogs. There are two kind of dogs: friendly dogs and the dangerous dogs. A lot of people say that the dogs are so friendly. I think that they never been in the dangerous situations with dogs. When I lived in village, there were so many dogs all across the streets. I used to scared of them. But now I know some lifehacks of this situation. First, If you see the big dog on the street, you should stay calm. Then you should pretend like you don't scared. Just walk calmly. Because, I know that dogs feeling our feelings too. If you (a) start run or escape from him, he's going to run with you. So, keep calm when you see the dog. If the dog is running after you, you should call other people for help. or you should try change the dog attention. There is one advice for you; If you see the high places like roofs or trees, try to being there. Because, dogs can not climb! So be careful! What about your friends' dogs? I would

say that if you come to the friends' home, at first you should tell them ~~get~~ the dog for the next room. I do not think that dogs of your friends can be dangerous. Usually, the homeless dogs are so angry. They can attack ~~at~~ childrens and even they can kill the people. So, it's a big serious problem.

At the end, I think we have to send email to government about this problem. They should work with it. Because we oftenly heard that people are died at dogs' attack.

If you want, let's go to the therapist. I think they are can help with your phopia. I know one person who was scared at cats. After the therapy, now he doesn't scare. At first he starts touch the cat toys and then he starts touch the cats! So, please tell me about your opinion. I'll wait. and please take care of yourself.

Sometimes dogs are one big problem and oftenly they are our friends. So, let's try to be friends with dogs!  
p.s. Assem.

Oftenly, Dogs our friends. Sometimes, they can save us from dangerous. I met a lot of people who has a dog. They can talk, play with them. So, I would say that dogs are kind. It's people make them so angrily...

## B) Websites review for Teen Magazine

In our days, many of the people start to learning different languages, such as English, Spanish, Korean and another. It's alright difficult learning another language, if you hadn't not none of materials to learning this language. For example, me.

When I had started learning Korean, it was awful not to find materials for learning. So, I want to help for young people, whose learning English. In this review included educational websites, which I using to learning English. I think it will be helpful to people like just me.

First of the sites, BBC learning English. This website absolutely free and you can spend only 5 minute of the day to spend.

This website would be helpful to people, whose don't want to spend time and this way want to (don't) depend their English level of themselves. In this website you can find podcasts properly on your level, and listen, read stories text, ~~and~~ so learn some vocabulary too. It's very useful, and more important. This website free.

Secondly, maybe to would be so banal, but it's very helpful. It is youtube.com. Yes, it this website many of people use to intertainment, to find kinda interesting video. but different way you can use it more educational. In youtube you can find movie, for your level, and listen music and just enjoy for yourself. This way depend your skills, kind of listening, speaking.

Another this omegle.com. If you want to practice your English use this free website. In this you can find your English speaking friend, maybe study-buddy, who can help you on the way to learning this language. Because the more practice skill like speaking, you did half of the way to learn. That's all my recommend. And if you use, it will be nice for me. Thanks for your attention!

Nowadays we can see a lot of teenagers who work at different places like Mc Donalds or gas stations and they work as hard as fully grown men. Usual cause of that is to get money for your own wills. Most of them start working at a really young age and by that they are basically sacrifice their own childhood. Childhood is the best time of every human on the planet when you don't have to care about anything and basically do whatever you want. But that is not stopping most of teenagers to start working so early.

In my opinion, it's neither bad nor good. It's their own choice and we can't judge them for that. If they want to work and earn money, they sure will do and we can't do anything about that, except law. Some companies have the minimum age written down in their policy and if you are below that age, you can't work for them.

For example, I have a cousin who started working at the age of 14. He was a car mechanic. But the thing is that he got his job by getting bored of school. He thought that school can't give him knowledge he wanted. And when he got his first money, he immediately left school and went to collage. He want to be a car mechanic and maybe engineer, but I don't know much about his dreams.

In conclusion, working teenagers is pretty common thing now and I don't see anything wrong with that.

A) Is it ok, working teenagers. I am 16, that's mean I'm teenager too. In my opinion working at 15-17 is ok. Yes, most of adults think that working at our teenage years is bad for our study or mood. But why every adult have had teenager yers. Everyone was a teenage. So why our parents wanna destroy our (plan) plans and dreams. We are the Z nation, we wanna have dreams, we wanna be educated, devoleped. Working gives us chance to feel ourselves like adults. It gives us chance to make a choose. While we working we have less stress. Finding new friends, having a good realenoship with society, be more confidend, all of this and the abilities of working. However this is our life and our chase, so I dont wanna my parent or other adults to be related with my choises. If teenage want to work and earn money by himself, work in good usefull works like cashier or assistent, why not. I really wanna tell about this to every parent. Please dont d. mind your ego to okstroy the psycalogy, dream of your kid.

Hi, my dear friend. I readed your email. You asking me advice about how to study better school online. Of course, I'll help you and give you advice about this. Important thing is - confident and patient. If you be nervous or worried, you will take a mistakes. Be confident and all be will allright. Also you need do all home works. For example, I do always do my home work, even I don't understand, but I try a lot. I never say "I do it tomorrow", because it's wrong. You need do all your work early, it's better than never do it. When you worry about any questions, ask you teacher, even if it's simply things. No matter what happened he support you, so be grate full. For example I always telled my teacher, ask him any question, tell him about my feelings, he support me and try to explain me, give me advice. I'm done. I want to see you and help you in real, but now I can't. Bye-bye, my dear friend. Good luck.

In my opinion, in this days, teenagers should go to work. Because now teenagers play important role with raise our country's economic. If teenagers work, our country's economic will be better than last years. But in this days some teenagers doesn't work. It is will be a few problems in future for example teenagers who don't work in one company or in working place will be able to dangerous to peoples and their lifes. Because teenagers who don't work will go to bad actions. It is get much money with playing bad games. For example playing cards, casinos and other such games. These games are not honest. So getting money with won at these games are honest. Badly, if one teenager lose in these game, but he hasn't such money, second human who won the game will kill him. And this situation is completing in this days a lot.

~~So~~ So teenagers's working important in this days. To work in normal working places, we have to study good and a lot. In results I agree with working teenagers. So I'm teenager and I will be able to work in normal working place, when I finish my study.
